📁 Projects

2024	<p>Project: FurnitureX - E-Commerce Platform for Furniture Buyers and Sellers</p> <p>Developed a fully functional e-commerce website using Django, where both buyers and sellers can seamlessly interact on a secure platform. This project features:</p> <ul style="list-style-type: none">• Buyer and Seller Dashboard: Users can browse a wide variety of furniture items, make purchases, and manage their orders, while sellers can list their products, track sales, and manage inventory.• User Authentication: Secure login and sign-up system with an option to reset forgotten passwords, ensuring a smooth user experience.• Payment Gateway Integration: Enabled secure payment processing for transactions, allowing buyers to complete purchases using multiple payment methods.• Responsive Design: Fully responsive UI for a seamless experience on both desktop and mobile devices.• Admin Panel: Admin can monitor and manage users, products, orders, and payments through a user-friendly dashboard.
